

Software Development Service Agreement

Effective Date:

PARTY A

PARTY B

1. Scope of Work

The Service Provider shall design, develop, and deploy a custom e-commerce platform including product catalog management, order processing, inventory tracking, and customer portal. The platform shall be built using React, Node.js, and PostgreSQL, and hosted on AWS infrastructure.

2. Timeline and Milestones

The project shall be completed within 20 weeks from the Effective Date. Key milestones: Design approval (Week 4), Beta delivery (Week 14), UAT completion (Week 18), Production launch (Week 20). Delays caused by Client feedback cycles shall extend the timeline proportionally.

3. Compensation

Client shall pay Service Provider a fixed fee of \$120,000 USD. Payment schedule: 25% upon signing (\$30,000), 25% at design approval (\$30,000), 25% at beta delivery (\$30,000), 25% at production launch (\$30,000). Late payments incur 1.5% monthly interest.

4. Intellectual Property

Upon full payment, all custom code, designs, and documentation created under this Agreement shall be the exclusive property of the Client. Service Provider retains rights to pre-existing tools, libraries, and frameworks used in development.

5. Confidentiality

Both parties agree to keep confidential all proprietary information disclosed during the engagement. This obligation survives termination of this Agreement for a period of two (2) years.

6. Termination

Either party may terminate with 30 days written notice. Upon termination, Client shall pay for all work completed to date. Service Provider shall deliver all work product and documentation within 10 business days of termination.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first written above.
