RE: Strategic Technology Partnership Proposal

Dear Sir/Madam,

Dear Ms. Brooks,

I am writing to express TechForward's strong interest in establishing a strategic technology partnership with Meridian Health Systems. Following our productive conversation at the HealthTech Summit last month, I believe our organizations are well-positioned for a collaboration that could transform patient care delivery.

TechForward has spent the past three years developing our AI-powered clinical decision support platform, which is now deployed across 45 hospital systems nationwide. Our platform has demonstrated a 23% reduction in diagnostic errors and a 15% improvement in patient throughput in clinical trials.

We envision a partnership that would integrate our AI capabilities with Meridian's electronic health records infrastructure, creating a seamless experience for your 12,000+ clinicians. Specifically, we propose a phased approach beginning with a 90-day pilot at two of your facilities.

I would welcome the opportunity to present a detailed proposal to your leadership team. Would you be available for a call next week to discuss next steps?

Thank you for your time and consideration. I look forward to the possibility of working together.

Warm regards,

Sincerely,
